The up/down arrows ▼▲ denote blocks that came from the same (longer) piece and are suitable for laminations where grain and/or colour matching matter. Thus blocks 220 and 221 are a "pair" etc. Nevertheless, these blocks may still be bought separately.

All the blocks are air-dried and cleanly machined.

The dimensions are in inches, the weights are in kilogrammes (= inch<sup>3</sup> x 0.008 approx.) and the prices in GBP (££).

Please note that if required, I will cut the long blocks, provided that I am left with reasonably sized pieces, at least 16" long.

Order by the Nº. Other (mainly smaller) pieces are available; send me an e-mail with your requirements.

The parcel charges are quite steep but I add only a few pence for the packing. If you live near Croydon, England, come and collect the wood and avoid the p&p.

Please note that as I am not a dealer I am not geared up for credit/debit card payments.
